Product Specification

HOODIAPURE™ 20:1

**Ref :
149450**

This specification sheet cancels and replaces all previous publications - May-24-2007

Description :

Botanical name : *Hoodia gordonii*
Extract ratio : 20/1
Plant part used : aerial part
Origin of the plant : South Africa

• Composition :

Hoodia gordonii, Maltodextrin, Silica (E551).

• Specifications :

Aspect : Powder
Color : Beige to brown
Flavor : Characteristic

Analytical quality :

Dry extract : > 92%
Particle size : 100% through 200 µm
Identification : Conform
Irradiation detection : Not irradiated (PPSL<700)

Microbiological quality :

Total plate count : < 5000 ufc/g
Yeasts and moulds : < 300 cfu/g
Coliforms : neg./g

• Packaging :

Polyethylene bag +cardboard box: 25kg

• Storage conditions :

Room temperature, sheltered from light, moisture and oxygen.

• Shelf life :

24 months under the previously mentioned conditions and in its original packaging.
